

Requirements

Python Requirement

This project was developed and tested with Python 3.12. For compatibility, Python 3.10 or later is recommended.

Dependencies

Install the required packages from the repository root with:

```
python -m pip install -r requirements.txt
```

The requirements.txt file contains the pinned package versions used for this project.

Required Repository Contents

For the tool to run correctly, the repository should contain:

- The datasets/ directory with the benchmark CSV files
- The scripts/ directory with the execution scripts
- The requirements.txt file

Minimum Practical Setup

To run the project, the minimum setup is:

1. Python 3.10 or later
2. `python -m pip install -r requirements.txt`
3. The included datasets/ directory kept in place
